Elevidys	2023-05-12	PRIORITY	PRIORITY: https://investorrelations.sarepta.com/news-releases/news-release-details/sarepta-therapeutics-announces-us-fda-has-accepted-filing-and
NurOwn	2023-09-27	STANDARD	STANDARD (calculated): original BLA. BrainStorm submitted the BLA on 9 Sep 2022 and FDA refused to file it on 8 Nov 2022, so that submission did not start a review clock. The BLA was filed over protest on 7 Feb 2023 (https://www.fda.gov/media/172403/download). The company release sets the revised PDUFA date at 8 Dec 2023, one day after 10 months from that filing, the standard goal for an original BLA. Fast Track is not the designation. The briefing does not say priority or standard review. https://brainstorm-cell.com/news/brainstorm-cell-therapeutics-announces-fda-advisory-committee-meeting-to-review-nurown-biologics/
CARVYKTI	2024-03-15	PRIORITY	PRIORITY: Legend Biotech 6-K exhibit, 26 May 2021, FDA accepted the original cilta-cel BLA for priority review (SEC). The 15 Mar 2024 ODAC reviewed efficacy supplement STN 125746.74, which an FDA statistical review calls "Priority Review: No" (https://www.fda.gov/media/177750/download). The flag is the original BLA.
ABECMA	2024-03-15	PRIORITY	PRIORITY: FDA clinical review of original BLA 125736/0, header "Priority Review (Yes/No): Yes" (FDA). The 15 Mar 2024 ODAC reviewed sBLA 125736/218, header "Priority or Standard: Standard" (https://www.fda.gov/media/177864/download). The flag is the original BLA.
(deramiocel)	2026-07-29	PRIORITY	PRIORITY: Capricor announcement, FDA accepted the original deramiocel BLA for priority review (press). The 29 Jul 2026 adcom reviewed a Class 2 resubmission whose own review type is not named (https://www.capricor.com/investors/news-events/press-releases/detail/338/capricor-therapeutics-announces-establishment-of-new-pdufa). The flag is the original BLA.
TUDRIQEV	2026-07-30	PRIORITY	PRIORITY: Replimune announcement, FDA accepted the original RP1 BLA for priority review (press). The 30 Jul 2026 adcom reviewed a Class 1 resubmission whose own review type is not named (https://ir.replimune.com/news-releases/news-release-details/replimune-announces-fda-acceptance-rp1-biologics-license). The flag is the original BLA.

Generated from adcom_full_pivotal.csv (CGT = CTGTAC rows + Kymriah, Ryoncil, Carvykti, Abecma). Values are exactly those in the dataset; see AGENTS.md corrections log 2026-11-04.
